

Week 01 : Programming Assignment 2

Due on 2026-02-05, 23:59 IST

Write a Java program to print the area and perimeter of a rectangle.

NOTE:

The code you see is **not complete**.

Your task is to complete the code as per the question.

Think of it like a programming puzzle.

(**Ignore presentation errors** for this and all future programming assignments)
("passed with presentation error" means **you will get full marks**)

Your last recorded submission was on 2026-01-20, 00:26 IST

Select the Language for this assignment.

File name for this program :

```
1 import java.util.Scanner;
2 public class W01_P2 {
3     public static void main(String[] strings) {
4         double width ;
5         double height;
6
7         Scanner in = new Scanner(System.in);
8         width = in.nextDouble();
9         height = in.nextDouble();
10    // Calculate the perimeter of the rectangle
11    // Calculate the area of the rectangle
12    double area = width * height;
13    double perimeter = 2 * (width + height);
14
15 }
```
